PROFESSIONAL SUMMARY

Full-stack developer. At **Elausys** I designed and shipped a multi-tenant e-commerce platform serving **four brands** (React/TypeScript, Node.js, PostgreSQL/Supabase). Systems and algorithms foundations at **42 Belgium** (C/C++), then Python, PostgreSQL and application architecture. Before that, ten years in learning technology: serious games, simulations and learning platforms, from framing the business need to delivery. Both halves serve the same end: applications the people using them actually understand. Target: a Walloon technology SME or an Odoo integrator.

PROFESSIONAL EXPERIENCE

FULL-STACK DEVELOPER

ELAUSYS | 2025 – 2026

- **Multi-tenant e-commerce platform** — React/TypeScript, Node.js, PostgreSQL/Supabase; data model, APIs, admin back-office. **4 brands live**: elausys.com, shop-knx.com, alarme-intrusion.be and knx-automation.com, shipped in February and March 2026.
- **IoT** — extended an energy management system (mobile app + server).
- **Integrations** — automated data pipelines across CRM, e-commerce and logistics (Notion, UPS, Axonaut, Brevo).

WEB DEVELOPER

FREELANCE | 2022 – PRESENT

- **Sites & applications** — HTML, CSS, JavaScript/TypeScript and React; custom WordPress sites (theme, event management plugin, SEO) for CPFB and AB-Decowood.

BEFORE THE CAREER CHANGE — 10 YEARS IN LEARNING TECHNOLOGY

UNAMUR · DE BOECK · VAN IN · BELGIAN RED CROSS · ULB & UCLouvain (CPFB) | 2011 – 2023

Teaching assistant and instructional collaborator at **UNamur** (Faculty of Arts), then digital editorial project manager and digital learning manager: framing business needs, selecting solutions, coordinating technical teams and stakeholders. Moodle administration and plugin development.

PROJECTS & DELIVERABLES

MULTI-ROLE HELPDESK APPLICATION

TEAM PROJECT — 5 DEVELOPERS · TECHNOBEL | 2026

Flask, SQLAlchemy, PostgreSQL, dependency injection, on an in-house framework modelled on Odoo's architecture. My scope: accounts, roles and teams, JWT authentication (*HttpOnly* cookie), authorisation decorator shared across the team, Chart.js dashboard.

PSER — MANDATORY FIRST AID TRAINING FOR NEW DRIVERS

BELGIAN RED CROSS FOR BRUXELLES MOBILITÉ | LIVE SINCE 2018

Public contract: since 2018, every Brussels resident applying for a driving licence takes this course. Bilingual registration portal (Symfony 4, Cronos API, eID reading), 360Learning LMS, 13 modules.

SERIOUS GAMES, SIMULATIONS & MOBILE APP

BELGIAN RED CROSS · ULB FACULTY OF PHARMACY | 2017 – 2023

Save Lives, an emergency-reflex game (Unity). Clinical simulations for pharmacy students: scenario scripting, adaptive dialogues, scoring and error feedback, virtual patients. First aid mobile app, **over 25,000 users**: adapted the IFRC open-source codebase, published to the app stores.

PROGRAMMING SKILLS & TOOLS

LANGUAGES & BACKEND

Python · Flask · PostgreSQL · Supabase · Node.js · C · C++

FRONT-END

JavaScript · TypeScript · React · Next.js · HTML5 · CSS3 · Tailwind CSS

TOOLS & ENVIRONMENT

Git · GitHub · Docker · Linux

METHODS & PRACTICES

Layered architecture

ORM & data modelling

JSON / REST APIs

Authentication & authorisation (JWT, RBAC)

Multi-layer debugging

Advanced SQL & PostgreSQL administration

Linux administration

EDUCATION & TRAINING

- **Intensive Odoo Developer programme (≈ 400 h)**
TECHNOBEL, CINEY | MAY – OCT. 2026

Python, PostgreSQL, ORM, React, application security, Linux. Admitted through technical tests and interviews (15 places).

- **Software development**

42 BELGIUM | 2023 – PRESENT

- **Training engineering and learning systems**

UCLouvain | 2020

- **Master's degree in French and Romance languages and literatures**

ULB | 2009 – 2011

- **Bachelor's degree in French and Romance languages and literatures**

UNAMUR | 2006 – 2009

LANGUAGE SKILLS

French native

English professional (B2)

Italian intermediate

Dutch basic
